---------------------------	-----------	--------	------------

All work is completed by students that are enrolled in the Wichita Falls ISD Career Education Center Cosmetology program. Times to complete services may vary. Please be aware that multiple services may require a significant amount of time.

A consultation is recommended to allow us the opportunity to inform you whether or not the service requested will be able to be completed in a school environment.

Appointments are highly recommended. An appointment will promise that we are in the lab and accepting clients. We occasionally do classes and activities that may not allow us to be available for appointments in which we will inform you of when scheduling.

We do not offer color correction services.
